**Project Completion Date \***

---

**Do you prefer to upload a description of the project, or do you prefer to manually enter it? \***

Provide a description of the project. Include in the description reasons why the project is deserving of an award by touching on the five submission criteria categories:

- **Quality** of electrical workmanship
- **Difficulty** of the electrical installation
- **Innovation** in construction techniques
- **Originality** in project thinking
- **Use of technology** in construction techniques

*You have the option to upload a document with these details or enter it manually. Select your desired option and you will be prompted to upload or enter information, depending on your choice.*

**PROJECT DESCRIPTION IS REQUIRED FOR JUDGING.**

Select one option

- I would like to upload a document entailing description of the project
- I would like to type up the description of the project

**Scope of Work Upload \***

Please provide a brief description of the project to be inspected and a brief statement as to why you feel this project should be considered for this award.

**Accepted file types: .pdf, .doc, .docx**

[File Upload]

**Scope of Work \***

Please provide a brief description of the project to be inspected and a brief statement as to why you feel this project should be considered for this award.

**You must submit at least 4 photos of the on-site construction progress and 3 photos that show the completed project.**

For best results in showcasing your work, follow these suggested guidelines for your images:

- Your image should be a JPG / JPEG
- Your image should be no smaller than 1,200 pixels (px) by 1,200 pixels (px)
- High resolution images are highly recommended to avoid pixelation or distortion
- Avoid extremely large file sizes, as your image will take longer to load upon viewing
  - *Tip: There are free services online which you can use to compress your images' file size without sacrificing quality*
